

7:50 AM NAIL CHANGES DUE TO ORTHOPEDIC FOOT CONDITIONS | Eckart Haneke, MD, PhD

TREATMENT OF ONYCHOMYCOSIS: A UK PERSPECTIVE | Ivan Bristow, FcPOD, PhD

- Recognize the factors leading to dermatophyte nail infection
- Have an awareness of the risk factors that predict recalcitrant infection
- Appreciate newer methods and agents in the management of nail infection

MELANONYCHIA IN PEOPLE WITH PIGMENTED SKIN | Sergio Henrique Hirata, MD, PhD

- Identify the clinical characteristics of racial melanonychia
- Identify the dermoscopic characteristics of racial melanonychia
- Know the differential diagnoses of racial melanonychia

SURGERY FOR MALIGNANT NAIL TUMORS I | Eckart Haneke, MD, PhD

9:50 AM MORNING BREAK

10:00 AM SURGERY FOR MALIGNANT NAIL TUMORS II | Eckart Haneke, MD, PhD

MANAGING STUBBORN WARTS | Ivan Bristow, FcPOD, PhD

- Appreciate the natural history of verrucae and their mechanisms to establish longevity
- Have an awareness of the immune mechanisms that may lead to the resolution
- Have an overview of contemporary methods for managing stubborn plantar warts

INTEROPERATIVE DERMOSCOPY OF THE NAIL MATRIX | Sergio Henrique Hirata, MD, PhD

- Explain how and why intraoperative dermoscopy should be performed
- Demonstrate the technique for performing intraoperative dermoscopy
- Demonstrate which dermoscopic characteristics are found in the nail matrix

WHY WOUNDS DON'T HEAL | Mark Dollard, DPM

- Understand the systematic phases of wound healing
- Identify the key triggers and regulators in wound healing phases
- Identify comorbid, medical, nutritional deficiencies and other factors causing delays in wound healing

EXPERT PANEL ROUND-TABLE W/Q&A | M. Joel Morse, DPM - Moderator

- Join the Conversation - Ask questions using the GoToWebinar Control Panel Message Platform

12:30 PM LUNCH BREAK

1:30 PM NAIL PATHOLOGY I: BASICS, INFECTIOUS, & INFLAMMATORY DISEASES | Beth S. Ruben, MD

- Review nail unit anatomy/histology
- Examine nail unit specimen types and best practices in tissue submission and how tissue sections of the nail unit can be optimized to allow for better diagnostic interpretation
- Examine select infectious and inflammatory diseases of the nail unit with clinicopathologic correlation

SIMPLIFYING WOUND HEALING WITH ZINC AND PH MODULATION | Mark Dollard, DPM

- Understand differences in pH requirements for skin vs. ECM repair
- Understand the extracellular matrix and chronic wound senescence
- Understand zinc's effect on Macrophage and MMP activity

TIPS & TECHNIQUES FOR THE PODIATRIST TO IMPROVE CARE: DERMATOPATH POINT OF VIEW I & II | Whitney High, MD, JD, MEng

- Help attendees recognize limitations in dermatopathology assessment
- Provide an understanding of situations where clinicopathologic correlation is a requisite
- Improve biopsy technique to improve diagnosis with patient care

3:30 PM AFTERNOON BREAK

3:40 PM OVERVIEW OF DRUG REACTIONS IN SKIN AND NAILS | Beth S. Ruben, MD

- Explore a variety of dermatologic reactions attributed to medication, including targeted therapies
- Examine some of the protean and occasionally unique dermatopathologic reaction patterns common to these agents
- Develop a better understanding of sequelae in patients who may be administered such medications

MEDICOLEGAL ISSUES IN PODIATRIC MEDICINE & DERMATOLOGY: DERMPATH I & II | Whitney High, MD, JD, MEng

- Provide an understanding of the risk of malpractice in dermatology
- Enhance recognizable situations in which the risk of malpractice allegations is higher
- Help attendees lessen the risk of malpractice or malpractice allegations by improvising care in high-risk situations

NAIL PATHOLOGY II: NEOPLASMS NOT TO MISS! | Beth S. Ruben, MD

- Survey interesting and pertinent nail neoplasms important in podiatry both clinically and histologically
- Explore diagnostic approaches and pitfalls in nail unit melanocytic neoplasms in children and adults
- Understand how determining benign versus malignant in epithelial and soft tissue neoplasms in the nail unit can sometimes be difficult

EXPERT PANEL ROUND-TABLE W/Q&A | M. Joel Morse, DPM - Moderator

- Join the Conversation - Ask questions using the GoToWebinar Control Panel Message Platform

5:40 PM KAHOOT CHALLENGE - NON-CME, LIVE STREAMING ACTIVITY | M. J. Morse, DPM - Host

- Gift Card Awards (1st = \$100, 2nd = \$50, 3rd = \$25)
