

6:30AM - 7:30AM	SEMINAR CHECK-IN AT SIGN-IN DESKS
7:30AM - 8:00AM	JUBLIA (Efinaconazole) TOPICAL SOLUTION 10% FOR THE TREATMENT OF ONYCHOMYCOSIS Warren Joseph, DPM Breakfast Symposium Sponsored by Ortho Dermatologics Non-CECH
8:00AM - 8:30AM	INTERESTING DERMATOLOGY CASES WHICH TEACH A LESSON Bryan Markinson, DPM <ol style="list-style-type: none"> 1. Become familiar with certain features of skin and nail cancer 2. Understand how to get patients to accept biopsy as a requirement in the diagnosis of their skin issue 3. Recognize the newer treatments used for skin and nail cancer
8:30AM - 9:00AM	THE ART OF INGROWN NAIL SURGERY - PAST, PRESENT, AND FUTURE Annette Joyce, DPM <ol style="list-style-type: none"> 1. Gain a historical perspective of nail matrixectomy, phenol alcohol 2. Current trends in nail procedures 3. Future restorative treatments for nail growth
9:00AM - 9:30AM	WHERE CBD FITS IN MEDICAL MANAGEMENT: THE SKINNY A. Ben Pearl, DPM <ol style="list-style-type: none"> 1. Understand the differences between modes of administration 2. Review research on CBD 3. Review various ways to have patients procure CBD
9:30AM - 10:00AM	DELAYED DIAGNOSIS OF CANCER ALLEGATION Bryan Markinson, DPM <ol style="list-style-type: none"> 1. Recognize and manage the patient with skin cancer 2. Review the stepwise approach to deal with this entity 3. Review the proper documentation for skin cancer and what is needed in your note
10:00AM - 10:30AM	CECH SIGN-IN AND EXHIBITOR HALL BREAK
10:30AM - 11:00AM	ACRAL DERMATOLOGY IN SKIN OF COLOR Lynn McKinley-Grant, MD <ol style="list-style-type: none"> 1. Identify early and late cutaneous manifestations of acral genetic, inflammatory and tumors in skin of color 2. Differentiate the color of erythema in the darker skin types 3. Recognize the acral dermatological signs of internally systemic disease and life-threatening dermatoses
11:00AM - 11:30AM	VENTILATION AND DUST EXTRACTION IN YOUR OFFICE WITH COVID-19 Robert Spalding, DPM <ol style="list-style-type: none"> 1. What air filtration can make your office safer with COVID-19 2. What the discernible differences are with COVID-19 and the use of masks vs. air filtration 3. Dust extractors for fungal nail care and if COVID-19 "hitches a ride" on dust
11:30AM - 12:00PM	COVID-19 AND THE SKIN MANIFESTATIONS OF THE CORONA VIRUS Lynn McKinley-Grant, MD <ol style="list-style-type: none"> 1. Identify the early and late cutaneous manifestation of COVID-19 in adults 2. Summarize the pathophysiology and cause and effect of COVID toes 3. Recognize the early signs of Corona virus in darker skin types
12:00PM - 12:30PM	THE POWER OF ART IN MEDICINE: AMBIGUITY, EMPATHY, AND CULTURAL COMPETENCY Lynn McKinley-Grant, MD <ol style="list-style-type: none"> 1. Describe with increased accuracy lower extremity physical findings 2. Interpret the meaning of ambiguity in medicine and in art 3. Demonstrate empathy for patients by creating a story and understanding of the culture
12:30PM - 1:00PM	THE ICE AGE IS OVER: HOW SWIFT MICROWAVE THERAPY IS CHANGING THE WART TREATMENT LANDSCAPE Robert Conenello, DPM Lunch Symposium Sponsored by Saorsa Non-CECH
1:00PM - 2:00PM	EXHIBIT HALL BREAK
2:00PM - 2:30PM	DERMASTERS DISCUSSION M. Joel Morse, DPM <ol style="list-style-type: none"> 1. Review pigmented skin dermatology and various pertinent questions 2. Review the many issues related to nail dust in one's practice 3. Review questions related to skin cancer cases of the morning
2:30PM - 3:00PM	ATOPIC DERMATITIS IN ADOLESCENTS Bernard Cohen, MD <ol style="list-style-type: none"> 1. Recognize different patterns in different age groups 2. Understand complications from atopic dermatitis, especially in adolescents 3. Enhance knowledge of treatment options, particularly for severe disease
3:00PM - 3:30PM	MANAGING PATIENT EXPECTATIONS IN LOWER EXTREMITY DERMATOLOGY M. Joel Morse, DPM <ol style="list-style-type: none"> 1. Review how bio-mechanics and dermatology intersect 2. Understand the common skin issues and their explanations 3. Perform biopsies at the same time as the visit
3:30PM - 4:00PM	SCRATCH PRINCIPLES: THINGS THAT BITE Bernard Cohen, MD <ol style="list-style-type: none"> 1. The diagnosis and treatment of head lice in the office 2. Identifying different patterns and morphology in scabies infestations and update on treatment 3. Distinguishing infestations from insect bite hypersensitivity
4:00PM - 4:30PM	CECH SIGN-IN AND EXHIBIT HALL BREAK
4:30PM - 5:00PM	DERMATOLOGY H AND P G. Dock Dockery, DPM <ol style="list-style-type: none"> 1. Review the basic parts of a dermatology history 2. Cover the important steps of the dermatology physical exam 3. Understanding the development of working differential diagnosis in dermatology
5:00PM - 5:30PM	WHAT'S NEW IN PEDIATRIC DERMATOLOGY Bernard Cohen, MD <ol style="list-style-type: none"> 1. Hot new stuff on impetigo and staphylococcal scalded skin infection 2. An update on diagnosis and management of tinea capitis and relevant medications for tinea corporis 3. The recognition of factitial dermatoses 4. New guidelines for the evaluation and management of infantile hemangioma
5:30PM - 6:00PM	DERMASTERS ROUNDTABLE: DPMS VS. DERMATOLOGISTS Drs. Cohen, Dockery, Markinson, Pearl, and Morse <ol style="list-style-type: none"> 1. The different treatments of dermatologists and podiatrists for the same diagnosis 2. Learn new treatment methods for our standard set of diagnoses

- 7:30AM - 8:00AM** **THE FUTURE OF SKIN DIAGNOSTICS - HOW DNA TESTING FOR SKIN INFECTIONS CAN IMPROVE YOUR PATIENT CARE** | Lisa Cohen, MD | Breakfast Symposium Sponsored by StrataDx | Non-CECH
- 8:00AM - 8:30AM** **ONYCHOMYCOSIS UPDATE: COUNCIL FOR NAIL DISORDERS** | Nathaniel Jellinek, MD
 1. Identify trends in onychomycosis, 2020
 2. Utilize different methods to diagnose onychomycosis
 3. Utilize novel therapeutic regimens for treating onychomycosis
- 8:30AM - 9:00AM** **SURGICAL PRINCIPLES IN SKIN** | Nathaniel Jellinek, MD
 1. Understand how to surgically remove benign and malignant tumors of the skin and nail
 2. List the techniques of wound closure and skin coverage for skin and nail lesions
 3. Understand skin excisions: elliptical and wedge
- 9:00AM - 9:30AM** **MELANONYCHIA WORKUP AND DIFFERENTIAL IN ADULTS AND PEDIATRICS** | Julia Baltz, MD
 1. List the differential for melanonychia including benign and malignant diagnoses
 2. List appropriate evaluation and management of melanonychia
 3. Contrast adult vs. pediatric melanonychia
- 9:30AM - 10:00AM** **NAIL UNIT MELANOMA (PR)** | Thomas Knackstedt, MD
 1. Discuss the clinical presentation of the nail unit melanoma and melanoma in situ
 2. Examine nail unit melanoma prognosis and staging
 3. Describe treatment modalities for nail unit melanoma and melanoma in situ
- 10:00AM - 10:30AM** **CECH SIGN-IN AND EXHIBITOR HALL BREAK**
- 10:30AM - 11:00AM** **SURGERY FOR PAINFUL NAIL TUMORS** | Nathaniel Jellinek, MD
 1. Identify painful nail tumors
 2. Diagnose noninvasively painful nail tumors
 3. Operate successfully on painful nail tumors
- 11:00AM - 11:30AM** **SQUAMOUS CELL CARCINOMA (PR)** | Thomas Knackstedt, MD
 1. Better understand the clinical presentation of nail unit SCC
 2. Employ appropriate imaging modalities for nail unit SCC
 3. Describe various treatment modalities for nail unit SCC
 4. List the differential diagnosis for nail unit SCC
- 11:30AM - 12:00PM** **PEDIATRIC NAIL CONDITIONS** | Julia Baltz, MD
 1. Review the usual differential of pediatric nail conditions and its etiology
 2. Review the medical and surgical treatments for these conditions
 3. Review the specific surgical principles and techniques when dealing with pediatric nail conditions
- 12:00PM - 12:30PM** **CHALLENGING CASES AND INTERACTIVE DISCUSSION: COUNCIL FOR NAIL DISORDERS** | Drs. Baltz, Jellinek, and Markinson
 1. Review specific cases that teach a lesson
 2. Discern differences in nail pathology
- 12:30PM - 1:30PM** **LUNCH SYMPOSIUM**
 Sponsored by Legally Mine | Non-CECH
- 1:30PM - 2:00 PM** **EXHIBIT HALL BREAK**
- 2:00PM - 2:30PM** **DERMASTERS DISCUSSION** | M. Joel Morse, DPM
 1. Review questions and answers related to the nail surgery for longitudinal melanonychia
 2. Understand the differences in surgery for SCC vs. melanoma
 3. Understand techniques in skin surgery
- 2:30PM - 3:00PM** **TOP TEN LOWER EXTREMITY DERMATOLOGY DIAGNOSES AND TREATMENT** | G. Dock Dockery, DPM
 1. Receive an in-depth look at the most common lower extremity skin conditions
 2. Review the currently recommended treatments for the ten listed skin conditions
 3. Provide clinical examples of each condition and their differential diagnoses
- 3:00PM - 3:30PM** **VASCULAR RAMIFICATIONS OF COVID** | Vinay Satwah, DO
 1. Understand the risks associated with COVID-19
 2. Identify dermatological findings associated with COVID-19
 3. Review available preventative measures for vascular issues associated with COVID-19
- 3:30PM - 4:00PM** **DECCEPTION IN DISINFECTION: NEW STANDARDS FOR ROUTINE FOOT CARE** | Robert Spalding, DPM
 1. Learn how to reference current EPA approvals for disinfectants in your office
 2. Review new national standards for routine foot care
 3. Learn how to stay COVID safe when disinfecting your office
- 4:00PM - 4:30PM** **CECH SIGN-IN AND EXHIBIT HALL BREAK**
- 4:30PM - 5:00PM** **DERMATOLOGICAL MANIFESTATIONS OF PAD** | Vinay Satwah, DO
 1. Understand risks associated with PAD
 2. Identify dermatological findings associated with PAD
 3. Apply the appropriate treatment modalities to the various dermatological disorders
- 5:00PM - 5:30PM** **BENIGN SKIN TUMORS: YOU SHOULD KNOW** | G. Dock Dockery, DPM
 1. Review the most common benign skin tumors of the lower extremity
 2. Learn to identify and describe soft tissue benign tumors
 3. Better understand the differential diagnosis and treatment of benign skin tumors
- 5:30PM - 6:00PM** **DERMASTERS PANEL: CONTROVERSIES IN LOWER EXTREMITY DERMATOLOGY** | Drs. Joyce, Morse, and Spalding
 1. Review controversial areas in skin and nail treatment
 2. Review research papers and the impact in podiatric practice

8:00AM - 8:30AM	A CLOSER LOOK AT INTER-DIGITAL INFECTIONS, DIAGNOSIS AND TREATMENT Tracey Vlahovic, DPM Breakfast Symposium Sponsored by Bako Diagnostics Non-CECH
8:30AM - 9:00AM	3-2-1 CONTACT: PEARLS FOR THE MANAGEMENT OF ALLERGIC CONTACT DERMATITIS Jonathan Zippin, MD <ol style="list-style-type: none"> 1. An introduction to Contact Dermatitis 2. Important allergens to consider for foot-related skin rash 3. Treatment approach
9:00AM - 9:30AM	ATOPIC DERMATITIS VS. LICHEN PLANUS VS. PSORIASIS G. Dock Dockery, DPM <ol style="list-style-type: none"> 1. Be better informed about the condition of acral atopic dermatitis 2. Review the most common findings in lower extremity lichen planus 3. Enhance understanding of psoriasis on the feet and legs
9:30AM - 10:00AM	DERMATOLOGY APPLICATIONS OF ARTIFICIAL INTELLIGENCE: PROMISES AND PITFALLS Roberto Novoa, MD <ol style="list-style-type: none"> 1. Review concept of deep learning and its origins 2. Review important papers in dermatology/AI from the past year 3. Understand three limitations and degrees involved in AI when applied to medicine
10:00AM - 10:30AM	CECH SIGN-IN AND EXHIBIT HALL BREAK
10:30AM - 11:00AM	YOU DON'T KNOW JAK: AN INTRODUCTION TO INFLAMMATORY DISORDERS Jonathan Zippin, MD <ol style="list-style-type: none"> 1. JAK signaling 2. Learn why blocking this pathway is important for skin disease 3. Review the current trial in process
11:00AM - 11:30AM	FOOT AND LEG ULCERS: WHEN TO WORRY Roberto Novoa, MD <ol style="list-style-type: none"> 1. Review the most common causes of foot and leg ulcers 2. Discuss red flags in the diagnosis of ulcers 3. Discuss and highlight rare inflammatory, neoplastic, and infectious leg ulcers
11:30AM - 12:00PM	DERMASTERS DISCUSSION M. Joel Morse, DPM <ol style="list-style-type: none"> 1. Review the work-up of leg ulcers and potential pitfalls 2. Understand the differences in treatments for atopic, psoriasis, and lichen planus 3. Review contact dermatitis in podiatry and the top allergens
12:00PM - 12:30PM	THE MORBILIFORM ERUPTION: DIFFERENTIAL DIAGNOSIS AND MANAGEMENT Roberto Novoa, MD <ol style="list-style-type: none"> 1. Discuss the most common causes of morbiliform eruption 2. Review a diagnostic approach to morbiliform eruption 3. Highlight life-threatening disorders with morbiliform eruptions
12:30PM - 1:00PM	A STEPWISE APPROACH TO LONGITUDINAL MELANONYCHIA Bryan Markinson, DPM <ol style="list-style-type: none"> 1. Review the physiology of nail growth and pigmentation 2. Review appropriate biopsy techniques 3. Review the management of longitudinal melanonychia in the everyday office setting
1:00PM - 1:30PM	PRACTICE SURVIVAL SKILLS Annette Joyce, DPM, A. Ben Pearl, DPM <ol style="list-style-type: none"> 1. Be able to prepare for the worst 2. Understand how to market in a down economy 3. Review economic trends in healthcare
1:30PM - 2:30PM	DERMFOOT HOSTED LUNCH AND EXHIBIT HALL BREAK BINGO DRAWING
2:30PM - 3:30PM	WHY THE PATIENT EVALUATION IS SO IMPORTANT: LITTLE THINGS MATTER Roya Mirmiran, DPM PICA UEG <ol style="list-style-type: none"> 1. Review the importance of following up on diagnostic test reports 2. Identify patient risk factors for the development of DVT/PE 3. Describe the necessity for preoperative medical clearance, having up to date lab work, and post-operative management of anticoagulation therapy
3:30PM - 4:00PM	DERMASTERS DISCUSSION M. Joel Morse, DPM <ol style="list-style-type: none"> 1. Review a skin and nail cases and the different ways to discuss it with the patient 2. Review a study on the patient-doctor interaction and how the explanation drives the treatment
4:00PM - 4:15PM	CECH SIGN-IN

This activity has been planned and implemented in accordance with the standards and requirements for approval of providers of continuing education in podiatric medicine through a joint provider agreement between CME Online and DERMfoot Educational Ventures, LLC. CME Online is approved by the Council on Podiatric Medical Education as a provider of continuing education in podiatric medicine. CME Online has approved this activity for a maximum of 25 continuing education contact hours.

- 8:00AM - 8:30AM** **UNIQUE CASES WITH CLINICOPATHOLOGIC CORRELATION**
Wesley Wetherington, MD | Breakfast Symposium Sponsored by Podpath Solutions | Non-CECH
- 8:30AM - 9:00AM** **NEW ANTIBACTERIALS YOU SHOULD KNOW** | Shmuel Shoham, MD
 1. Be aware of the various new categories of antibacterial therapy
 2. Understand the epidemiology of resistant bacterial infections
 3. Recognize the roles of oral vs. intravenous antibacterial therapy for osteomyelitis
- 9:00AM - 9:30AM** **NEW ANTIFUNGALS YOU SHOULD KNOW** | Shmuel Shoham, MD
 1. Know about currently available antifungal agents
 2. Gain an understanding of important antifungal agents currently in development
 3. Recognize the growing role of antifungal susceptibility testing
- 9:30AM - 10:30AM** **DIAGNOSIS AND TREATMENT OF CORONAVIRUS** | Shmuel Shoham, MD
 1. Gain an understanding of how to diagnose COVID-19
 2. Recognize ideal timing for treatment with various options
 3. Become aware of the various categories of therapy
 4. Question and Answer - Open to your most important COVID related questions
- 10:30AM - 11:00AM** **CECH SIGN-IN AND BREAK**
- 11:00AM - 11:30AM** **INTRODUCTION TO DERMOSCOPY: HANDS-ON PRACTICE** | Hadjh Ahrens, MD and Elizabeth Seiverling, MD | 3Gen Speakers
 1. Tips to optimally use a Dermatoscope
 2. Knowledge of how to capture a Dermoscopic image
 3. Review of case-based practice
- 11:30PM - 12:30PM** **INTRODUCTION TO ACRAL DERMOSCOPY - NEVI, MELANOMA, POROMA, AND BEYOND** | Elizabeth Seiverling, MD | 3Gen Speaker
 1. Review an algorithm for the evaluation of acquired melanocytic growths on acral skin
 2. Gain confidence in differentiating pigment in the furrows from the pigment in the ridges
 3. Recognize the findings under dermoscopy of subcorneal hemorrhage, scabies, verruca, poroma, and angiomas
 4. Understand the use of Dermoscopy for longitudinal melanonychia
- 12:30PM - 1:00PM** **NAIL DERMOSCOPY** | Ami Greene, MD | 3Gen Speaker
 1. Review the four main dermoscopic patterns in nail disease
 2. Review the dermoscopic features differentiating benign versus malignant longitudinal melanonychia
 3. Identify the differentials in SCC of the nail
- 1:00PM - 1:05PM** **CONCLUDING REMARKS**
Annette Joyce, DPM, Meeting Chair and M. Joel Morse, Scientific Planning Committee Chair

Our first stop will be the prestigious Stone Tower winery, with an expansive Tasting Room. Wood-fired pizzas & Charcuterie Boards available for purchase.

Virginia Wine Tour

Visit two unique area wineries in the Harmony Cluster Region, traveling down winding roads with mountain vistas for views that pair perfectly with glasses of wine. This family-owned winery boasts magnificent views, premium wines, and hospitality to match on 55 acres atop Hogback Mountain in Leesburg, VA.

Top-notch Viticulturists have prepared French varietals, from grape to bottle, creating an unforgettable tasting experience at Stone Tower Winery

Stone Tower Winery Signature Tasting is offered for gatherings of 8 or fewer on a first come, first serve basis. Enjoy a Sampling through 7 of the most popular releases before deciding on a favorite! Signature tasting is offered for \$20/person.

ZEPHANIAH FARM
Travel and Leisure magazine named this family winery as top 25 in America, come with us to find out why!

Guests will enjoy, round-trip travel accommodations in a luxury minibus, \$35/person

Departure is at 1:30PM from the Hilton exterior lobby, with an estimated return of 5:30PM

RSVP to: Admin@DERMfoot.com or at the Sign-In Desk during the Seminar
